ABLETON LIVE

Version 8 enhances the Ableton vision of creative, real-time digital music with a wealth of new techniques, effects and most-wanted workflow improvements.

NEW FEATURES

- New groove engine lets you apply groove patterns in real time, extract grooves from audio or MIDI sources, quantize audio and MIDI in real time, and comes with a new groove library.
- New warping engine for a new, more direct and enhanced way of working with warping • Now warp audio events by adjusting events themselves on timeline. Beats Mode has been updated, and there's a completely new Complex Warp Mode. Plus you can slice audio files to MIDI tracks based on transients.
- Looper gives you classic sound-on-sound looping without limitations of a hardware device, remote operation: record, overdub, undo and more without touching computer.

- Five powerful new effects: Vocoder, Multiband Dynamics, Overdrive, Limiter and Frequency Shifter.
- Workflow enhancements: it's easier with a number of most-wanted enhancements and some deceptively simple detail work including real-time crossfades in the Arrangement View, enhanced MIDI editing, group tracks, a screen magnifier and more.

New in Ableton Suite 8: World-class library; Collision, a unique instrument for authentic mallet sounds and creative percussion; **Latin Percussion** collection of acoustic percussion instruments such as congas, bongos, timbales, claves, shakers, tambourines and bells from the worlds of Brazilian, Afro-Cuban and African music; **Operator**, Ableton's renowned do-it-all synthesizer, has been given a major overhaul with new filter types, more modulation routing options and additive wavetable synthesis with drawable partials so Operator is more powerful and flexible than ever.

- Full ReWire support
- Single-screen user interface for simple, creativity-focused operation
- Multicore and multiprocessor support

SYSTEM REQUIREMENTS

Mac : 1.25 GHz G4/G5 or faster (Intel Mac recommended), 1 GB RAM (2 GB recommended), Mac OS X 10.4.11 (10.5 or later recommended), DVD-ROM drive
